The AQSE Growth Market, which is operated by Aquis Stock Exchange Limited (“Aquis Stock Exchange”), a recognised investment exchange under Part XVIII of FSMA, is a market designed primarily for emerging or smaller companies to which a higher investment risk tends to be attached than to larger or more established companies.

It is not classified as a regulated market under the UK version of Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments and AQSE Growth Market securities are not admitted to the Official List of the FCA. Dear Shareholder

Proposed Acquisition of GL Membership Limited
Approval of Waiver of Obligations Under Rule 9 of The City Code on Takeovers and Mergers
Change of Name to Good Life Plus Plc
Share Capital Consolidation
Subscription and Placing of 70,000,000 New Ordinary Shares at 2 Pence per Share
Admission of the Enlarged Share Capital to Trading on the Access Segment of
the AQSE Growth Market
Notice of General Meeting

1 Introduction and General Meeting

The Company announced today that it has conditionally agreed to acquire the issued, and to be issued, share capital of GL Membership Limited (trading as Good Life+), a monthly membership, daily prize draw business with an experienced leadership team. The aggregate consideration payable by the Company is approximately £10 million, to be entirely satisfied by the issue of the Consideration Shares to the Vendors at the Placing Price.

At the same time, the Company will raise approximately £1.4 million by way of the Subscription and the Placing in order to provide working capital to finance the growth of the Enlarged Group.

The Acquisition constitutes a Reverse Takeover pursuant to the AQSE Growth Market Access Rulebook and is therefore conditional, amongst other things, on the approval of Shareholders at the General Meeting. Further details of the General Meeting are set out in paragraph 22 of this Part I. Further details of the terms and conditions of the Acquisition are set out in paragraph 5 of this Part I.

The Company and the Panel have agreed that certain of the Vendors should be treated as acting in concert for the purposes of the Takeover Code as set out in paragraph 10 of this Part I. Immediately following Admission, the Concert Party will hold 342,840,925 New Ordinary Shares, representing approximately 54.5 per cent. of the Enlarged Share Capital. Assuming (amongst other things) that only the Management Options held by members of the Concert Party are exercised, the Concert Party will hold 363,674,258 Ordinary Shares representing 55.96 per cent. of the Enlarged Share Capital.

On account of the fact that its aggregate shareholding in the Company will increase from less than 30 per cent. to more than 50 per cent., the Concert Party would normally be obliged, under Rule 9 of the Takeover Code, to make an offer to all Shareholders (other than the Concert Party) to acquire their Ordinary Shares for cash at the highest price paid by any member of the Concert Party during the 12 months prior to Admission. However, the Panel has agreed to waive this obligation, subject to the approval of the Independent Shareholders on a poll of the Rule 9 Waiver Resolution at the General Meeting. Your attention is drawn to the Rule 9 Waiver section contained in paragraph 10 of this Part I.

It is also proposed that every 10 of Existing Ordinary Shares be consolidated into one New Ordinary Share of 0.1p and on completion of the Acquisition and Admission the Company change its name to Good Life Plus Plc to reflect the business of the Enlarged Group.

The purpose of this Document is to explain the background to and reasons for the Proposals and to explain why the Directors consider them to be in the best interests of the Company and Shareholders as a whole

and to seek Shareholders' approval of the Resolutions, including the Rule 9 Waiver, being proposed at the General Meeting.

The Proposals are conditional, among other things, on the passing of the Resolutions and Admission. If the Resolutions are approved by Shareholders, it is expected that Admission will become effective and dealings in the Enlarged Share Capital will commence on the Access Segment of the AQSE Growth Market on or around 18 December 2023. The General Meeting of the Company at which the Resolutions will be proposed has been convened for 10.00 a.m. on 15 December 2023 at the offices of Charles Russell Speechlys LLP, 5 Fleet Place, London EC4M 7RD.

You should read the whole of this document and not just rely on the information contained in this letter. In particular, you should consider carefully the "Risk Factors" set out in Part III of this Document. Your attention is also drawn to the information set out in Parts II and IV to VIII of this Document.

2 Background to and Reasons for the Acquisition

The Company was incorporated in January 2020 and admitted to trading on the Access Segment of the AQSE Growth Market in April 2021 to focus on establishing esports teams and engaging with esports professionals, forming partnerships with brands (for sponsorship) and well-known personalities (for online campaigns and content) and strategic technology partners for research into, and development of, tech products.

On 31 October 2022, the Company announced with its interim results for the six months to 31 July 2022 that it had reduced overheads whilst it continued its search for an appropriate future strategy. On 22 March 2023, the Company announced that Jassem Osserian had stepped down from the Board and that the Company was considering a number of options. On 28 April 2023, the Company announced it had raised £100,000 before expenses and that the Board was exploring the acquisition of another business which would very likely constitute a Reverse Takeover transaction.

The Existing Directors believe that GL+ is a dynamic business, led by a strong management team, which is capable of significant growth, and that the Acquisition presents the Company and its Shareholders with an exciting opportunity to invest in a new and disruptive daily prize draw business with significant potential.

As announced on 16 May 2023, the Company subscribed for £250,000 of Convertible Loan Notes issued by GL+. Third party investors subscribed for a further £120,000 of Convertible Loan Notes in July, £65,000 in September and £59,000 in October 2023 to provide GL+ with additional working capital. The Convertible Loan Notes issued to third party investors will be converted into 174,387 GL+ ordinary shares immediately prior to Completion.

The Proposed Directors intend to rapidly expand GL+'s customer base. In addition, further commercial relationships which have the potential to lead to a rapid uptake of GL+'s subscription service are being actively pursued. The proceeds of the Placing and Subscription are expected to accelerate GL+'s growth. Following Admission, the Enlarged Group will have the potential to raise further capital, as well as the ability to use the Company's shares as acquisition currency.

Accordingly, the Existing Directors propose that, subject to approval of the Resolutions by Shareholders at the General Meeting, the Company should acquire GL+. The Enlarged Group's operations would thereafter solely constitute the business of GL+, which is the provision of daily prize draws and access to discounts and deals at restaurants, cinemas, theme parks and more. Further details of the business and operations of GL+ are set out in paragraph 3 below.

3 Information on GL+

GL+ was founded in September 2021 offering a monthly membership that gives members access to daily prize draws providing members with potentially life changing prizes whilst simultaneously providing access to discounts and deals at members' favourite restaurants, cinemas, theme parks, gyms and more. GL+'s goal is to become a leading player in the luxury prize draw industry along with the likes of Postcode Lottery and Omaze.

The membership base has seen significant growth over the last 12 months. GL+ currently has over 21,000 active members and generates around £210,000 in monthly recurring revenue. The proceeds of the Placing and Subscription will allow for rapid customer acquisition and expansion, with the immediate aim of significantly growing the number of active members within 12 months. Various additional commercial relationships are under active discussion which, individually and in aggregate, have the potential to lead to rapid uptake of the subscription prize draw service offered by GL+.

GL+ aims to reinvent the traditional prize draw experience, to create a far more current, transparent and interactive model, which is more in touch with the digital age.

In addition to its active members, Good Life+ currently has around 500,000 email subscribers, over 400,000 social media followers and over 2,173 Five Star Trustpilot reviews.

Further information on GL+, its history, the market in which it operates and its competitors is contained in Part II of this Document.

5 Principal Terms of the Acquisition

The Company has today entered into the Acquisition Agreement with the Vendors in order to acquire the entire issued and to be issued share capital of GL+ in consideration for the issue and allotment to the Vendors of the Consideration Shares.

The Acquisition Agreement is conditional, *inter alia*, on:

- i. a waiver by the Panel of the obligations that would otherwise arise on the Concert Party to make a general offer for the Enlarged Group under Rule 9 as a consequence of the allotment and issue of the Consideration Shares and the Management Options to the Concert Party pursuant to the Proposals;
- ii. the Resolutions being passed at the General Meeting;
- iii. completion of the Subscription and Placing; and
- iv. Admission of the Enlarged Share Capital to trading on the Access Segment of the AQSE Growth Market.

Subject to the conditions being satisfied on or before 31 December 2023, the Company will issue and allot to the Consideration Shares to the Vendors which, at the Placing Price, values the transaction at £10,000,000. The issue price of each of the Consideration Shares is £0.02.

Further details of the Acquisition Agreement are set out in paragraph 6.1 1 of Part VIII of this document.

The Consideration Shares will represent approximately 79.48% of the Enlarged Share Capital on Admission and will rank *pari passu* in all respects with the Existing Ordinary Shares, including all rights to all dividends and other distributions declared, made or paid following Admission.

In addition, and conditionally on completion of the Acquisition Agreement, the Company has also today entered into an Asset Purchase Agreement with Chadd Media pursuant to which the Company has agreed to purchase the business intellectual property rights, the goodwill, the records, the social media accounts and the domain name of Chadd Media Limited with effect from Admission in order to secure those assets for the benefit of the Enlarged Group. Further details of the Asset Purchase Agreement are set out in paragraph 6.1 10 of Part VIII of this document.

6 Future Strategy of Enlarged Group and Use of Proceeds

Following Admission, the Enlarged Group intends to focus on growth through:

- rapid customer acquisition and expansion, with the immediate aim of significantly growing active members within 12 months from Admission;
- pursuing partnership opportunities with the potential to lead to rapid uptake of GL+'s subscription service;
- increasing customer retention through the introduction of initiatives including a referral plan, a loyalty programme, a bespoke subscription management platform and AI based customer relationship management tools;
- introducing upsells to increase customer lifetime value; and
- exploring white-label opportunities.

Approximately 80% of the net proceeds of the Placing and Subscription are expected to be used in acquiring further customers, while 10% is expected to be used to expand the team with the remaining 10% earmarked for product development.

7 Information on the Subscription and Placing

The Subscription and Placing are together expected to raise approximately £1,400,000 for the Company, before expenses. The expenses incurred in connection with the Proposals are approximately £400,000. The net proceeds of the Placing and Subscription of approximately £1,000,000, together with the Enlarged Group's existing resources, is intended to be used as described in paragraph 6 above.

The aggregate Subscription Shares and Placing Shares comprise 70,000,000 New Ordinary Shares which will represent approximately 11.13 per cent. of the Enlarged Share Capital. On Admission, at the Placing Price, the Company will have a market capitalisation of approximately £12.58 million.

Under the Placing Agreement, Novum has conditionally agreed to apply on behalf of the Company for admission of the Enlarged Share Capital to trading on the Access Segment of the AQSE Growth Market. The Placing Shares and the Subscription Shares will rank *pari passu* with the Existing Ordinary Shares. Neither the Placing nor the Subscription is underwritten or guaranteed. Further details of the Placing Agreement are set out in paragraph 6.1 14 of Part VIII of this document.

Both the Subscription and Placing are conditional on, amongst other things: (a) the Placing Agreement having become unconditional and not having been terminated in accordance with its terms; (b) the Acquisition Agreement not having been terminated or amended, and having become unconditional; (c) Admission having become effective by no later than 8.00 a.m. on 18 December 2023 or such later time, being no later than 5.00 p.m. on 31 December 2023, as the Company and Novum may agree; and (d) the Rule 9 Waiver being granted.

The Placing is conditional, *inter alia*, on:

- the passing of the Resolutions;
- completion of the Acquisition; and
- Admission becoming effective not later than 8:00 a.m. on 18 December 2023 (or such later time and/or date as Novum and the Company may agree in writing).

The Subscription Shares and the Placing Shares will be issued fully paid and will, on issue, rank *pari passu* with all other issued New Ordinary Shares, including the right to receive, in full, all dividends and other distributions thereafter declared, made or paid after the date of Admission.

8 Dilutive Impact of the Placing, Subscription and Issue of Consideration Shares

The proposed issue of the Subscription Shares, the Placing Shares and Consideration Shares will dilute existing shareholdings of Shareholders. The maximum dilution which a Shareholder will suffer, as a result of completion of the Subscription and Placing and the issue of the Consideration Shares (presuming that they do not participate in the Placing or Subscription and are also not a Vendor), is 91.81 per cent.

10 The Takeover Code and Dispensation from General Offer

The proposed Acquisition and the issue of the Consideration Shares gives rise to certain considerations under the Takeover Code. Brief details of the Panel, the Takeover Code and the protections they afford are described below.

The Takeover Code applies to the Company. Under Rule 9 of the Code, any person who acquires an interest in shares which, taken together with shares in which that person or any person acting in concert with that person is interested, carry 30% or more of the voting rights of a company which is subject to the Code is normally required to make an offer to all the remaining shareholders to acquire their shares. Similarly, when any person, together with persons acting in concert with that person, is interested in shares which in the aggregate carry not less than 30% of the voting rights of such a company but does not hold shares carrying more than 50% of the voting rights of the company, an offer will normally be required if such person or any person acting in concert with that person acquires a further interest in shares which increases the percentage of shares carrying voting rights in which that person is interested.

An offer under Rule 9 must be made in cash at the highest price paid by the person required to make the offer, or any person acting in concert with such person, for any interest in shares of the company during the 12 months prior to the announcement of the offer.

Rule 9 of the Code further provides, among other things, that where any person who, together with persons acting in concert with that person holding shares carrying more than 50% of the voting rights of a company, acquires any further shares carrying voting rights, then such person will not generally be required to make a general offer to the other shareholders to acquire the balance of their shares. The Concert Party will hold shares carrying over 50% of the voting right in the Company. The Concert Party as a whole, may acquire further shares without any obligation under Rule 9 to make an offer, however, individual members of the Concert Party will not be able to increase their percentage interest in shares through, or between, a Rule 9 threshold without Panel consent.

As agreed with the Panel, The Concert Party is made up of certain of the Vendors of GL+ who, by virtue of presumption 10 of the definition of acting in concert under the Takeover Code, whereby shareholders in a private company who sell their shares in that company in consideration for the issue of new shares in a company to which the Takeover Code applies, are presumed under the Takeover Code to be acting in concert. Full details of the members of the Concert Party are shown below.

Biographical details for Charlie Chadd and Joseph Chadd are set out in paragraph 9 of Part I above.

Josh Chadd is the brother of Charlie Chadd and Joseph Chadd.

Natalie Chadd is the wife of Josh Chadd.

Oisin Casserley is a senior employee at JGC Trading Limited t/a Prestige Cars Kent Automotive Retail, a company of which Joseph Chadd is the sole director and sole shareholder.

Following allotment and issue of the Consideration Shares and Management Options to the Vendors and the issue of the Subscription Shares and Placing Shares, the Concert Party will hold a maximum of 363,674,258 Ordinary Shares, representing approximately 55.96% of the Enlarged Share Capital.

Except as disclosed in this Document, there has been no significant change in the financial or trading position of the Company since 31 July 2023 and of GL+ since 31 March 2023, the date of the latest published financial information as set out in Part IV of this Document.

The members of the Concert Party do not currently hold any Ordinary Shares. The issue of the Consideration Shares would therefore trigger an obligation of the Concert Party to make an offer for the Company in accordance with Rule 9 of the Takeover Code.

The Panel has agreed, however, to waive the obligation for the Concert Party to make a general offer that would otherwise arise as a result of the issue of the Consideration Shares, subject to the approval of the Rule 9 Waiver Resolution by the Independent Shareholders voting on a poll at the General Meeting.

Following the issue of the Consideration Shares to the members of the Concert Party, representing a maximum of approximately 54.5% of the Enlarged Share Capital, for so long as the Concert Party hold more than 50% of the Company's voting share capital and its members are presumed to be acting in concert by the Panel, they may increase their aggregate interests in the Ordinary Shares in the Company without incurring any obligation under Rule 9 to make a general offer for the remaining shares, although individual members of the Concert Party would not be able to increase their percentage interest in the Ordinary Shares of the Company through, or between, a Rule 9 threshold without the consent of the Panel.

11 Information on the Concert Party

The Concert Party comprises the following Vendors of GL+ who are presumed to be acting in concert under the Takeover Code:

Joseph Chadd	127,740,993	8,333,333	136,074,326	20.94%
Josh Chadd	9,034,016	—	9,034,016	1.39%
Natalie Chadd	9,034,016	—	9,034,016	1.39%
Oisin Casserley	5,420,410	—	5,420,410	0.83%
Total	342,840,925	20,833,333	363,674,258	55.96%

**Save as set out above in relation to Charlie Chadd and Joseph Chadd, no member of the Concert Party will be party to any incentives referred to in paragraph 16 of this Part I.*

Biographical details of Charlie Chadd and Joe Chadd are set out in Paragraph 9 above.

Details of other members of the Concert Party and other disclosures are set out in Part VI of this Document.

12 Intentions of the Concert Party

Save for the appointment of the Proposed Directors and the resignation of Max Deeley on Admission, no member of the Concert Party is currently proposing any changes to the Board of Directors of the Company. The members of the Concert Party have confirmed their intention that, following any increase in their holdings of Ordinary Shares as a result of the issue to them of the Consideration Shares, the business of the Enlarged Group would be as set out in "Future Strategy of the Enlarged Group and Use of Proceeds" in paragraph 6 above. The members of the Concert Party have no intention of relocating the business or redeploying the fixed assets of the Company. The members of the Concert Party are not restricted from making an offer for the Company under the Code.

The Concert Party intends to maintain the Company's admission to trading on the AQSE Growth Market. Apart from the Existing Directors, the Company has no employees. On Admission Max Deeley will resign from the Board, which will then comprise Keith Harris and Proposed Directors. The Company does not currently operate any pension schemes and has no research and development facilities. Following Admission, the Enlarged Group will be managed by Keith Harris and the Proposed Directors, with the support of the senior management team described in Section 9 above and its administrative staff. Following Admission, the Directors intend to implement GL+'s strategy as outlined in "Future Strategy of the Enlarged Group and Use of Proceeds" in paragraph 6 above.

13 Lock-In Agreement and Relationship Agreement

Immediately following Admission, the Proposed Directors and Keith Harris will together hold an interest in, in aggregate, 321,282,482 New Ordinary Shares, representing approximately 51 per cent. of the Enlarged Share Capital. Each of the Proposed Directors and Keith Harris has undertaken to the Company and Novum, subject to certain exceptions as permitted by the AQSE Growth Market Rules, not to dispose of or transfer any of their respective interests in the Ordinary Shares, for a period of 12 months from Admission (“**Lock-In Period**”). In addition, each of Keith Harris and the Proposed Directors have undertaken to the Company and Novum not to dispose of their Ordinary Shares for a period of 12 months after the end of the Lock-In Period without first consulting the Company and Novum in order to maintain an orderly market for the Ordinary Shares. Further details of the Lock-in Agreement are contained in paragraph 6.1 7 of Part VIII of this document.

In addition each of Charlie Chadd and Joseph Chadd, as significant shareholders, have undertaken to exercise the rights attaching to his shares to procure that, *inter alia*, the Enlarged Group and its business shall be managed for the benefit of the Shareholders as a whole and all transactions, agreements and arrangements between any member of the Enlarged Group and either of them shall be on an arm’s length basis and on normal commercial terms. Further details of the Relationship Agreement are contained in paragraph 6.1 4 of Part VIII of this document.

14 Corporate Governance

The Directors recognise the importance of sound corporate governance and, with effect from Admission, the Proposed Directors intend to observe the requirements of the QCA Code to the extent they consider appropriate in light of the Company’s size, stage of development and resources.

Given the nature and purpose of the Company, the experience of the Directors and the Company’s proposed strategy (all as set out above), the Directors believe that the composition of the Board is appropriate and suitable.

The Company has established an audit committee and a remuneration committee. With effect from Admission the members of the audit committee will be John Taylor as chairperson, with Keith Harris and John Gordon as members. The remuneration committee will be chaired by John Gordon with Keith Harris and John Taylor as members. The audit committee has primary responsibility for monitoring the quality of internal controls and ensuring that the financial performance of the Enlarged Group is properly measured and reported on. The remuneration committee will review the performance of the Board and make recommendations to the Directors on matters relating to their remuneration and terms of employment. The remuneration committee will also make recommendations to the Directors on proposals for the granting of share awards and other equity incentives pursuant to any share award scheme or equity incentive scheme in operation from time to time.

In light of the size of the board of directors of the Company, the Directors do not consider it necessary to establish a nomination committee; however, the Directors will keep this under regular review.

The Company has adopted a share dealing code for dealings in shares by the Directors and senior employees that is appropriate for an AQSE Stock Exchange Growth Market company and which is compliant with MAR. The Company will take steps to ensure compliance by the Directors and any relevant employees with the terms of this code.

The Directors have established financial controls and reporting procedures which are considered appropriate given the size of and structure of the Company. These controls will be reviewed in the light of the Company’s future development and adjusted accordingly.

15 Application to the Access Segment of the AQSE Growth Market

An application will be made for the Enlarged Share Capital to be admitted to trading on the Access Segment of the AQSE Growth Market. Admission of the Placing Shares is expected to become effective and dealings in the New Ordinary Shares are expected to commence at 8:00 a.m. on 18 December 2023.

The Placing Shares and Subscription Shares will, on Admission, rank *pari passu* in all respects with all other New Ordinary Shares in issue and will rank in full for all dividends and other distributions declared, paid or made on the ordinary share capital of the Company after Admission.

16 Share Options, Incentives and Warrants

The Directors believe that it is important for the success and growth of the Company to employ and engage highly motivated personnel and that equity incentives are available to attract, retain and reward employees, directors and consultants. In order to achieve that objective, the Company intends to adopt an incentive plan under which it may award new Ordinary Shares to directors, employees and consultants pursuant to share option and incentive schemes approved by the Board. It is intended that any individual awards under any such scheme will be subject to vesting and/or performance conditions. Ordinary Shares under such plans will not exceed 10 per cent. of the Company's issued Ordinary Shares from time to time without the prior approval of the Shareholders.

On Admission, the Company proposes to grant Management Options over 34,783,333 New Ordinary Shares to the Directors, members of the senior management team and certain advisers exercisable at the Placing Price of which 2,000,000 will vest on Admission and the remainder will vest 12 months following Admission, representing, in aggregate, 5.53% of the issued share capital on Admission.

Management Options will be granted to the Directors and other persons discharging managerial responsibilities in the Enlarged Group as follows:

Name	Number of Management Options
Keith Harris	1,500,000
Charlie Chadd	12,500,000
Joseph Chadd	8,333,333
John Gordon	1,200,000
John Taylor	750,000
David Ivy	3,500,000
Ian McCaig	2,000,000

At the date of the Document, the Company has no share options in issue. However, at the date of this document, there are 5,335,000 outstanding warrants to subscribe for New Ordinary Shares (assuming, for these purposes, that the Consolidation has taken place). Of those 2,735,000 are exercisable until 27 April 2026 at a price of 5 pence per share and 2,600,000 are exercisable until dates ranging between 26 April 2026 and 25 May 2026 at a price of 10 pence per New Ordinary Share. Further details of the existing warrants are set out in paragraph 2.2.3 of Part VIII of this document.

17 Dividend Policy

The Directors believe that the Enlarged Group should seek principally to generate capital growth for its Shareholders but may recommend dividends at some future date, depending upon the generation of sustainable profits, if and when it becomes commercially prudent to do so, subject to having distributable reserves available for the purpose. At present, the Company has accumulated realised losses on its balance sheet which will need to be cleared before dividends can be paid. As a result, the Company will be unlikely to be in a position to pay dividends in the short to medium term.

18 Working Capital

The Directors are of the opinion that, having made due and careful enquiry, and taking into account the proceeds of the Placing and Subscription, the working capital available to the Enlarged Group is sufficient for a period of at least twelve months following Admission.

19 Consolidation of Share Capital

The Company's issued ordinary share capital currently consists of 515,499,800 Existing Ordinary Shares of 0.01p each in the capital of the Company ("Existing Ordinary Shares"). It is proposed to consolidate every 10 of the Existing Ordinary Shares into one New Ordinary Share of 0.1p ("New Ordinary Share").

Following the Consolidation (but before the issue of the Consideration Shares, the Placing Shares and the Subscription Shares), there will be 51,549,980 New Ordinary Shares in issue. Holders of Existing Ordinary Shares ("Existing Shareholders") should note that while the numbers of shares held by them will change, the proportion of the issued ordinary shareholdings in the Company held by each Existing Shareholder immediately before and after the Consolidation will, except for fractional entitlements, be unchanged.

Any Existing Shareholders holding fewer than 10 Existing Ordinary Shares at 6.00 p.m. on 15 December 2023 (or such later date as the Directors may determine and communicate to Shareholders by an appropriate announcement to a Regulatory Information Service) (“the Record Date”) will cease to be a Shareholder of the Company.

Existing Shareholders with a holding of more than 10 Existing Ordinary Shares, but which is not exactly divisible by 10 will have their holding rounded down to the nearest whole number of New Ordinary Shares. Fractional entitlements to a New Ordinary Share will be aggregated and sold in the market, for the best price reasonably obtainable on behalf of those Shareholders entitled to the fractions. As the net proceeds of sale will amount to less than £5 for any entitled Shareholder, they will (in accordance with usual market practice) be retained by the Company.

20 Share Certificates

New share certificates in relation to the New Ordinary Shares will be despatched to Shareholders who hold their New Ordinary Shares in certificated form on or about 28 December 2023. The new share certificates will be sent by first-class post, at the risk of the holders of relevant New Ordinary Shares, to the registered address of that holder or, in the case of joint holders, to the one whose name appears first in the register of members. On receipt of the new share certificates all Ordinary Share certificates previously issued will no longer be valid and should be destroyed. Until a holder of certificated Ordinary Shares receives a new share certificate, transfers of certificated Ordinary Shares will be certified against the register of members.

Shareholders whose holdings are held in uncertificated form through CREST will have their CREST accounts adjusted to reflect their entitlement to New Ordinary Shares.

21 CREST

The Company’s Articles of Association are consistent with the transfer of Ordinary Shares in dematerialised form in CREST under the CREST Regulations. Application has been made for the New Ordinary Shares to be admitted to CREST on Admission. Accordingly, settlement of transactions in Ordinary Shares following Admission may take place within the CREST system if relevant Shareholders so wish.

CREST is a voluntary system and Shareholders who wish to receive and retain certificates in respect of their Ordinary Shares will be able to do so.

Set out at the end of this Document is the Notice of General Meeting, convening the General Meeting to be held at 10.00 am. (London Time) on 15 December 2023 at the offices of Charles Russell Speechlys LLP, 5 Fleet Place, London EC4M 7RD, at which the following Resolutions will be proposed.

Accordingly, the Existing Directors unanimously recommend that Independent Shareholders vote in favour of Resolution 2, as the Existing Directors intend to do in respect of their own beneficial shareholdings, which amount in aggregate to 15,000,000 Existing Ordinary Shares, representing approximately 2.91 per cent. of the Existing Ordinary Shares.

Yours faithfully

Keith Harris
Non-Executive Chairman

PART II

INFORMATION ON GL MEMBERSHIP

1. Overview of the GL+ Business

GL+ operates an entertainment-focused monthly subscription service for consumers that provides access to daily prize draws, along with numerous offers, discounts and rewards.

GL+'s mission is to reinvent the winning experience by offering everyone a shot at the "good life" and revolutionise the prize draw sector by providing a more exciting, transparent and current offering with improved odds of winning. This is facilitated through a monthly membership that, as well as providing access to daily prize draws for highly desirable prizes, also has member benefits such as discounts on eating out at select chain and independent restaurants, free cinema tickets, discounted hotel bookings and reduced theme park entries at select sites.

In comparison to buying, for instance, National Lottery tickets with a 1 in 45 million chance of winning the jackpot, GL+ prize draws are more frequent (daily) providing subscribers with considerably better odds and an opportunity to save through a variety of offers, discounts and rewards.

GL+ provides a freemium model allowing consumers free entry to its prize draw for 7 days before potential subscribers have to decide whether to opt for ongoing paid membership. This allows GL+ to convert more casual interest into customers, thereby increasing the return on customer acquisition spend.

It is anticipated that as the membership base grows, the quality of the prizes on offer and the rewards available will also increase in both volume and value.

Based and incorporated in the UK in September 2021, GL+ has grown to over 21,000 active subscribers and generates around £210,000 in monthly recurring revenue. In addition, Good Life+ has around 500,000 email subscribers, over 400,000 social media followers and 2,173 five-star Trustpilot reviews.

GL+ currently operates with 21 employees and representatives across various functions including marketing, production, finance and management.

2. History of GL+

The Good Life+ concept was first considered in 2021 by the two co-founders, Charlie Chadd and Joseph Chadd. After having operated a similar model through Chadd Media, and reflecting on the achievements of The Postcode Lottery in 2020, Charlie and Joe saw an opportunity to launch a more current and exciting subscription model that provided more than just the opportunity to win prizes.

The co-founders believe that the traditional lottery and prize draw experience is outdated and that the sector is ripe for disruption. With a traditional professional lottery, the prize jackpots are often weekly. The majority of tickets are bought spontaneously for each draw as discrete retail transactions and the odds ensure that there are few chances for participants to win meaningful prizes. Charlie and Joe felt the experience could be made better with more chances to win. This works by offering lower value, but still significant, top-end prizes such as luxury cars and luxury holidays and higher-value low-end prizes including electronic goods (iPhones, gaming consoles and TVs etc.) and travel experiences with cash alternatives that are more substantial than £30 National Lottery 'wins'.

A system was conceived that focused on less overall ticket entries for the draws, therefore increasing odds of winning. Central to this proposition are daily live draws held across multiple social media and web platforms. These allow members to engage with the presenters providing transparency and trust.

By July 2021 a new website had been built and the company was incorporated in September 2021. The product launched immediately with positive traction from week one.

The first 12 months were spent predominantly focused on building out the product and a bespoke payment solution, whilst simultaneously raising funds. Since September 2022 the business has trebled its membership base taking it from 7,000 to over 21,000 active members and over 500,000 email subscribers.

GL+ has attracted 2,173 Five Star Trustpilot reviews and over 400,000 social media followers.

3. GL+ Membership

There are currently four standard membership tiers:

- Standard with a subscription price of £11.99 per month;
- Gold with a subscription price of £14.99 per month;
- Platinum with a subscription price of £18.99 per month; and
- An unlimited plan with a subscription price of £99.99 per year paid in advance.

The value of the package determines how many entries a subscriber gets to use in the Prize Draws.

As GL+ scales, the Proposed Directors intend to introduce additional features applicable to the different membership tiers. These will include:

- members being able to ‘weight’ more of their monthly ticket allocation into specific draws;
- earning more tickets by referring friends;
- loyalty programmes with bonus tickets for staying subscribed;
- doubling, tripling and quadrupling chances to win by using a peer-to-peer referral scheme;
- complimentary cinema tickets and free online blockbuster movies; and
- schemes providing a bespoke prize draw/member benefits package on a white label basis to businesses to offer their employees and/or customers.
- an affiliate and partnerships manager to create complementary ways of adding value to the products, whether with discounted deals, giveaways or exclusive offers.

4. Business model

GL+ is a B2C membership programme with subscriptions ranging from £11.99 to £18.99 per month or £99.99 per year. Customers are initially directed to GL+’s website predominantly via paid marketing channels such as Facebook, Google, Taboola and YouTube. Other channels are continuously evaluated and, when identified, engaged for their potential.

GL+ invites consumers to sign up without payment by giving their name and email. Once they have entered the prize draw, they are contacted via email to promote paid membership. A subscription provides automatic entry to every draw, as well as access to numerous offers, discounts and rewards. The GL+ freemium model allows it to acquire customers efficiently and at scale whilst growing its active database substantially.

Once the customer is acquired, GL+’s focus moves to retention, keeping members as subscribers for as long as possible. A variety of new features are currently being worked on to improve this further, such as a loyalty programme, complimentary cinema tickets and the introduction of a call centre to improve customer service and retain customers looking to cancel their membership. GL+ offers some customers whom they believe may respond positively to encouragement to remain a member a “lite” membership for a subscription price of £1.99 per month.

As the Good Life+ subscriber base grows, so does monthly recurring revenue. Significant costs, such as prizes and operating expenses, have a substantially fixed element and, after a certain threshold is met, the increasing monthly recurring revenue is expected to put GL+ on the path to profitability. A comparable business model is The People’s Postcode Lottery which operates a subscription model and has over four million members in the UK alone. In 2022 it generated £554 million in revenue.

The Directors believe there is an opportunity to create a more current, exciting membership model that is more than just an opportunity to win incredible prizes, while remaining outside the regulated lottery and gambling sector.

5. Regulatory

GL+ is a free prize draw which complies with UK regulatory requirements including the Gambling Act 2005.

The Gambling Act provides that free draws and prize competitions can be run for commercial or private gain and can be used when promoting a product or raffling high value items such as a car.

There are two types of free prize draws:

- The first type is where all entries are free; and
- The second type includes both a free and a paid entry route.

For these purposes ‘free’ is defined as any method of communication charged at the normal rate for communicating by telephone or post. If a company runs a free prize draw with a paid entry route, it must ensure that:

- People can choose to take part without paying either for entry or to collect a prize;
- The free entry route can be no more expensive and must be no less convenient than the paid route;
- The free entry route must be available at the normal communication rate so, for example, special delivery post cannot be required;
- The free entry route must be displayed and promoted at the same level as the paid routes;
- The choice between the free entry route and the paid entry route must be promoted so it is likely to come to the attention of all potential entrants; and
- The system that determines prizes must not distinguish between free and paid entries.

GL+ actively promotes its free entry route on an equal footing to its paid entry route. All choices of entry method (paid and free) are equally publicised together on the same web-page, and no entry method is more or less prominent than the other. The opportunity is offered to enter by post or online simply by providing an entrants name and email. Customers are also directed to the free entry page via paid advertisements.

GL+ has received legal advice that, because the choice between purchasing a subscription membership online and the postal entry route is prominently displayed and publicised clearly on GL+'s website, GL+ can lawfully run its prize draw competitions.

6. Market

GL+ operates in a global sector that continues to grow annually. Free prize draws and sweepstakes are a rapidly growing space, with brands such as Omaze growing substantially over the last decade. The Directors believe that the prize draw/lottery and discount sectors tend to fare well in economic downturns.

The Directors also believe that the GL+ product stands out from its competitors as its subscription model provides more than just prizes. It also means that GL+ is not bound by regulations that affect competitions, lotteries and gambling products.

However, many GL+ customers will be familiar with the global lottery market which was estimated to be worth over £261 billion in 2021. In the year to 31 March 2022, Camelot, the operator of the UK National Lottery, achieved £8.09 bn in revenue. In 2022, The People’s Postcode Lottery achieved over £554 million in UK sales, with Novamedia B.V., the parent company that operates almost identical models throughout Europe, achieving €2.3 billion in sales in 2021.

7. Competition

GL+ competes with a number of other lottery, competition and prize draw providers. The Directors consider that the most relevant competitors are as follows:

The UK National Lottery (operated by Camelot)

The National Lottery is a state-franchised lottery established in 1994. Since its inception it has been operated Camelot Group but, from 2024, the franchise will be held by Alwyn Entertainment Limited. Camelot currently offers a range of draws over the course of a week which can be entered online or through purchasing tickets from licensed retailers. In addition, instant win games and scratch cards can be purchased on and offline. In the year to 31 March 2023, Camelot achieved gross ticket sales of £8.2 billion.

The People’s Postcode Lottery

Launched in the UK in 2005, The People’s Postcode Lottery has grown to be a household name, with over 4 million active members. It achieved £554 million in revenue in 2022. Like GL+, it runs a monthly subscription and members can play for as little as £12 per month. It undertakes very large direct mail campaigns and TV advertisements, focusing on traditional advertising channels and reaching an audience of lower/middle income consumers. As a regulated lottery which customers must pay to enter, it does not need to offer a free entry route. The People’s Postcode Lottery spends as much as 70% of annual revenue on

prizes and charity. The Directors believe The People's Postcode Lottery has no real competition in its sector of the market.

BOTB (Best Of The Best)

Best of The Best Plc launched in the UK in 1998. Entry is via a skill-based game in which customers must play a game of 'spot-the-ball' for the chance to win a car of their choice. Users must pay to enter but can play for as little as 50p. BOTB does not operate a subscription model and relies on customers coming back to play regularly, resulting in a continuous customer acquisition process. Customers must play a game of spot-the-ball every time they would like to enter, which makes the entry process significantly slower than entering Postcode Lottery or GL+. In the year ended 30 April 2022, BOTB achieved £34.68 million in annual sales. It is a well-known brand and leader in this space and was admitted to trading on AIM from 16 August 2006 until 24 August 2023, when its admission was cancelled following a recommended cash offer valuing BOTB at approximately £45.3 million.

8. Key Strengths of the Business

Some of Good Life+ strengths which the Directors believe will help lift GL+ above its competitors are:

– Experienced Management Team

As outlined in paragraph 9 of Part I above, the Directors and Senior Employees have considerable experience of businesses based on digital marketing. In addition, they have previous experience of running public companies and of leading businesses to a successful exit.

– Prize Draw

GL+ is not a lottery. This avoids the compliance costs associated with the regulations that lottery and gambling companies must adhere to.

– Subscription Model

The subscription model gives GL+ cheaper customer acquisition costs and generates recurring revenue. The Directors believe this provides GL+ with a more predictable, more scalable, valuation based on annual recurring revenues with more customer lifetime value. With new retention features are completed, customer acquisition costs are expected to come down further.

– Daily Prize Draws

Customer engagement is higher as the chances to win are daily rather than once a week, month or year like some competitors.

– Live Presenters

GL+ prize draws happen live and are live-streamed, providing a high level of transparency and engagement in comparison with buying tickets for a draw and never being informed about who won.

– Product market fit

Good Life+ has already achieved a product market fit and is in a high growth phase. Its membership base has more than trebled since November 2022, with over 21,000 active members.

– Large database of existing and expired members

While customer churn must be expected, GL+'s database currently has over 422,000 records.

– Membership Rewards

Good Life+ offers access to numerous discounts and offers and will continue to introduce a wide variety of additional rewards for members, with a focus on entertainment. This puts Good Life+ in a position where its members can potentially save more than their monthly membership fee.

9. Employees

Good Life+ currently has a total of 21 employees, representatives and freelance consultants operating from its offices at Unit G&H, Brook Mill Road, Orpington, BR3 5TX. The Directors believe that the Company will not need to hire many new additional roles over the next 36 months. However, key new appointments are likely to include a compliance officer, a strategic partnerships manager and a social media manager.

10. Current trading and prospects for trading of GL+

GL+ is cashflow and revenue generative and, to date, has been funded by the co-founders with approximately £1.8 million of third party equity investment in aggregate to date.

Innovations likely to be introduced to the business in the near future include:

- pursuing partnership opportunities with the potential to lead to rapid uptake of GL+'s subscription service;
- increasing customer retention through the introduction of initiatives including a referral plan, a loyalty programme, a bespoke subscription management platform and AI based customer relationship management tools;
- introducing upsells to increase customer lifetime value; and
- exploring white-label opportunities.

Part III

RISK FACTORS

An investment in Ordinary Shares involves a high degree of risk. Accordingly prospective investors should carefully consider the specific risk factors set out below in addition to the other information contained in this Document before investing in Ordinary Shares.

If any of the following risks actually occur, the Enlarged Group's business, financial condition, capital resources, results or future operations could be materially adversely affected. In such a case, the price of Ordinary Shares could decline and investors may lose all or part of their investment.

An investment in Ordinary Shares described in this Document is speculative. Potential investors are accordingly advised to consult a person authorised for the purposes of FSMA who specialises in advising on the acquisition of shares and other securities before making any investment decisions. A prospective investor should consider carefully whether an investment in the Enlarged Group is suitable in the light of his or her personal circumstances and the financial resources available to him or her. If you are in any doubt about the action you should take, you should consult your independent professional adviser authorised under FSMA.

RISK FACTORS RELATING TO THE BUSINESS AND OPERATIONS OF THE GROUP

1. Early-stage business

GL+ is at an early stage of its development and faces a number of operational, strategic and financial risks frequently encountered by companies looking to bring new services to the market. GL+ has not yet reported net positive operating cash flow or a profit and there can be no assurance that it will do so. Whilst the Directors are optimistic about the Enlarged Group's prospects, there is no certainty that anticipated outcomes and sustainable revenue streams will be achieved.

The Company has in place a growth strategy for the Enlarged Group for the initial period after Admission, but there can be no assurance that the Enlarged Group will be able to expand its business as planned, that the expanded business will be profitable or that the business will generate any revenue. Whilst the Directors believe that they have identified strategies by which the Company could expand its business and strategic partners it can contract with, unforeseen factors could adversely affect its future financial performance and there is no certainty that anticipated outcomes and sustainable revenue streams will be achieved. Due diligence in respect of any new entity, business plan and people may not reveal all of the risks.

Furthermore, GL+ faces risks frequently encountered by early-stage companies. In particular, its future growth and prospects will depend on its ability to expand its operations and gain revenue streams whilst at the same time maintaining effective cost controls. Any failure to generate revenue streams and expand them is very likely to have a material adverse effect on the Enlarged Group's business, financial condition and results. Significant unanticipated costs might arise in relation to the Company's business.

Any one or more of these risks could have a material adverse effect on the Enlarged Group's business, financial condition and results of operations.

2. High reliance on founders and other key individuals

In all areas of the business, the Enlarged Group will continue to be dependent upon the involvement and contribution of GL+'s founders, Charlie and Joseph Chadd. Whilst the Enlarged Group will endeavour to ensure that these individuals remain suitably incentivised, the loss of the services of one or more of them could adversely affect the ability of the Enlarged Group to achieve its objectives.

Given the relatively small size of GL+, its future success is substantially dependent on the Directors and a small number of key individuals. The Directors therefore view the continued service of the Directors, senior management and other key personnel as important. Whilst the Directors are taking steps to ensure that knowledge, skills and expertise are shared so as to avoid the Enlarged Group being unduly dependent on individuals, the Directors acknowledge that such measures may prove to be ineffective if there were circumstances beyond the Enlarged Group's control that had an adverse effect on one or more key personnel. In order to be able to develop, support and maintain its business, the Enlarged Group must also recruit and retain suitably qualified personnel, some of whom require a specialist skill set. A failure to retain key staff and/or to recruit suitably qualified and experienced staff when needed may have a material adverse effect on the Enlarged Group's business, financial condition and results of operations.

3. *Customer retention and acquisition*

GL+ currently operates in a competitive online market, geographically focussed on the UK. If GL+ does not promote and sustain its brand and platform through marketing and other tools, it may fail to retain existing customers or acquire the new customers required to maintain or increase the Enlarged Group's revenue. An important element of GL+'s customer acquisition strategy is providing a high-quality user experience and establishing a relationship of trust with its customers. If GL+'s customers are dissatisfied with the quality of the customer service they receive and/or the prizes and other benefits provided or their overall customer experience, customers may stop subscribing for GL+'s services. The Enlarged Group's failure to provide its customers with a high-quality service and/or products for any reason could substantially harm the Group's reputation and brand image, which could undermine new customer acquisition and customer retention and have a material adverse effect on the Group's business, results of operations and financial condition.

4. *Economic conditions and other factors which affect disposable income*

Adverse changes in global, regional or local economic conditions, including recession or slowing growth, changes or uncertainty in fiscal, monetary, or trade policy, higher interest rates, tighter credit, inflation, increases in unemployment and lower consumer confidence and spending periodically occur. Adverse changes in economic conditions, including as a result of the COVID-19 pandemic, inflationary pressures and instability in the geopolitical environment in many parts of the world, could significantly harm demand for GL+'s services and make it more challenging to forecast its operating results and make business decisions, including regarding prioritisation of investments in the Enlarged Group's business. A slowdown in economic growth could have a wide range of adverse effects on the Group, including a decrease in demand for the Group's services.

5. *The reputation and integrity of the Good Life+ brand*

GL+'s performance is closely linked to its image and reputation. This depends on many factors, including the quality of its service, prizes and other benefits, the image and presentation of its app and website, its communication activities, including social media, advertising, public relations and marketing, and its general corporate and market profile, which can be adversely affected for reasons within and outside GL+'s control.

GL+'s brand value also depends on its ability to maintain a positive consumer perception of its corporate integrity and culture. Negative claims, publicity or breach of advertising standards, gambling laws or other related regulations involving GL+, its agents or its services could seriously damage the Enlarged Group's reputation and brand image, regardless of whether such claims or publicity are accurate.

A substantial failure to maintain favourable brand recognition could have a material adverse effect on the Enlarged Group's business, financial condition, results of operations and prospects.

6. *Regulatory Issues*

GL+ is a subscription service that automatically enters members into free prize draws, whilst simultaneously providing access to additional benefits with third party retailers. GL+'s prize draws are free to enter online or via post and GL+ processes a significant number of free entries every year. Members have a choice between entering for free or paying for GL+'s monthly membership. GL+ has received legal advice that, because the choice between purchasing a subscription membership online and the postal entry route is prominently displayed and publicised clearly on GL+'s website, GL+ can lawfully run its prize draw competitions and that it is highly likely that GL+ is not regulated by the UK Gambling Act or subject to reporting to the UK Gambling Commission.

In the event that GL+'s service ceases to qualify as a "free prize draw" GL+'s business will be subject to regulation under the UK Gambling Act which will include complying with ongoing reporting obligations to the UK gambling commission. This might adversely affect the way in which the business is organised and run, GL+'s ability to attract and retain customers and might impose material additional costs on the Enlarged Group which are not currently anticipated which could therefore have a material adverse effect on the Enlarged Group's business, financial condition, results of operations and prospects.

If any regulatory approval is required, the timescales for such approval being given can be affected by various factors, some of which are outside the Enlarged Group's control. Delays in regulatory approval being given could impact upon the delivery of GL+'s services and ultimately have a financial impact upon the Enlarged Group and its prospects.

In addition, the provisions of the Gambling Act, including its scope, may also be subject to change, differences in interpretation or amendment without prior notice or consultation. Any such changes or amendments may significantly impact the business of the Enlarged Group.

Whilst a new ‘Gambling’ white paper, published by the UK Government in April 2023, briefly touched upon the prize draw sector, its focus was on the “largest competitions”, intending to affect those that could be mistaken for society lotteries, with specific emphasis being placed on player protection and improving transparency around how much is given to good causes. The Directors believe that GL+ is not yet large enough to fall into this categorisation, but the Enlarged Group will keep any potential future regulation closely under review.

7. *Cyber security*

GL+ relies on systems and websites that allow for the secure storage and transmission of proprietary or confidential information regarding its consumers, customers, suppliers, employees and others, including credit card information and personal information.

There is a risk of whole or partial failure of this technology to protect transaction data or other sensitive and confidential information from being breached or compromised. In addition, ecommerce websites are often attacked through compromised credentials, including those obtained through phishing and credential stuffing. GL+’s security measures may not detect or prevent all attempts to breach the Enlarged Group’s systems, denial-of-service attacks, ransomware attacks, viruses, malicious software, break-ins, phishing attacks, social engineering, security breaches or other attacks and similar disruptions that may jeopardise the security of information stored in or transmitted by GL+’s website, networks and systems or that it or such third parties otherwise maintain.

If any of these breaches of security should occur, the reputation of the Group could be damaged, customers could develop the perception that the Group’s platforms are not secure, its business may suffer, it could be required to expend significant capital and other resources to alleviate problems caused by such breaches, and it could be exposed to a risk of loss, litigation or regulatory action and possible liability.

8. *Data Protection*

GL+ holds personal data relating to its customers, employees and other stakeholders and is subject to data protection and privacy regulations, including (i) the GDPR as incorporated into UK domestic law pursuant to the Data Protection, Privacy and Electronic Communications (Amendments etc) (EU Exit) Regulations 2019; and (ii) the Privacy and Electronic Communications (EC Directive) Regulations 2003 (“PECR”). The GDPR contains stringent operational requirements for the Group’s use of personal data, including expanded disclosures to the Group’s customers in respect of how the Group may use their personal data, increased controls on profiling customers and increased rights for customers to access, control and delete their personal data. In addition, there are mandatory data breach notification requirements and significantly increased penalties of the greater of £17.5 million or 4 per cent. of global turnover for the preceding financial year. PECR also imposes specific requirements and limitations applicable to the use of cookies and similar technologies, and to direct electronic marketing activities.

The Group has policies and procedures in place in relation to data protection and to direct marketing, but there can be no guarantees that even strict compliance with such policies and procedures will completely eliminate all risk in this regard. Any perceived or actual failure by the Group, including by its third-party service providers, to protect confidential data or any material non-compliance with privacy or data protection or other consumer protection laws or regulations may harm the Group’s reputation and credibility, adversely affect revenue, reduce its ability to attract and retain customers and consumers, result in litigation or other actions being brought against the Group and the imposition of significant fines and, as a result, could have a material adverse effect on the Group’s business, financial condition, results of operations and prospects.

9. *Limitations on use of customer data*

New or existing laws, rules of self-regulatory bodies that the Group may find necessary or desirable to join, industry standards, regulatory guidance, contractual obligations, and/or changes in its customers’ expectations and demands regarding privacy and data security, may limit the Group’s ability to collect, use, disclose, share, and leverage customer data and to derive economic value from it, including in relation to direct marketing activities. These restrictions may require the Group to expend significant resources and/or harm its business, operating results and financial condition.

10. Additional Financing

The Enlarged Group expects to incur significant costs in connection with development of its customer base, services and technology. The Enlarged Group's financing requirements depend on numerous factors, including its ability to attract customers, commercial partners and other factors that may be outside of the Enlarged Group's control. The Enlarged Group may require additional financing in the medium to long term, whether from equity or debt sources, to finance working capital requirements or to finance its growth through future stages of development.

Any additional share issue may have a dilutive effect on Shareholders, particularly if they are unable to, or choose not to, subscribe by taking advantage of rights of pre-emption that may be available. Debt funding may require the lender to take security over the assets of the Enlarged Group, which may be exercised if the Enlarged Group were to be unable to comply with the terms of the relevant debt facility agreement. Failure to obtain adequate future financing on acceptable terms, if at all, could cause the Enlarged Group to delay, reduce or abandon its development programmes or hinder commercialisation of its product portfolio and could have a material adverse effect on the Enlarged Group's business, financial condition or operating results.

11. Competition

The market for prize draws in the UK is competitive. Since the establishment of the UK state franchised National Lottery in 1994, the commercial market for lotteries and prize draws has grown significantly. There are now many organisations which offer lottery and prize draw services including several large competitors such as Omaze and People's Postcode Lottery.

Even though the Existing Directors and Proposed Directors believe that GL+ has a competitive advantage in this space, the Enlarged Group may face competition from organisations which have greater capital resources. This could hinder the Enlarged Group's ability to compete successfully in the market. In addition, the Directors anticipate that the Enlarged Group will face increased competition in the future as new companies enter the market and alternative products and services, strategies and technologies become available.

Increased competition from new and existing companies, including as a result of their aggressive pricing, may have a material adverse effect on the Enlarged Group's financial results. If the Enlarged Group's business model is successful it may be replicated by other organisations, some of which may have greater resources than the Enlarged Group.

12. Reliance on information technology systems

GL+ is highly reliant on its information technology systems for the processing, transmission and storage of electronic data relating to its business, operations and financial reporting. A significant portion of communications among GL+'s personnel, partners, customers and suppliers rely on the efficient performance of information technology systems. The success of the Enlarged Group is dependent on its technical capabilities, and it relies to a significant extent on the efficient and uninterrupted operation of its website, and the systems of its third-party suppliers, such as external hosting providers, including the internet.

Despite the Enlarged Group's security measures and back-up systems, its information technology and infrastructure may be vulnerable to attacks by hackers, computer viruses or malicious code or may be breached due to employee error, malfeasance or affected by other disruptions, including as a result of natural disasters or telecommunications breakdown or other reasons beyond the Enlarged Group's control.

If one or more such events occur, it could cause material disruptions or delays to the Enlarged Group's operations and result in the loss of revenues as well as confidential information and know-how, which could expose the Enlarged Group to liability and cause its business and reputation to suffer. The Enlarged Group may also be required to expend significant capital and other resources to alleviate problems caused by such breaches or failures. Any of the foregoing could have a material adverse effect on the Enlarged Group's prospects, results of operations and financial condition.

RISKS RELATING TO THE ORDINARY SHARES

13. Investment in AQSE Growth Market securities

An investment in companies whose shares are traded on the AQSE Growth Market is perceived to involve a higher degree of risk and be less liquid than an investment in companies whose shares are listed on the Official List. AQSE is a market designed primarily for emerging or smaller companies. The rules of this market are less demanding than the Official List. The future success of the AQSE Growth Market and

liquidity in the market for Ordinary Shares cannot be guaranteed. In particular, the market for Ordinary Shares may become or may be relatively illiquid and therefore, such Ordinary Shares may be or may become difficult to sell.

The market for the Ordinary Shares following Admission may be highly volatile and subject to wide fluctuations in response to a variety of factors which could lead to losses for Shareholders. These potential factors include amongst others: any additions or departures of key personnel, litigation and adverse press, newspaper and/or other media (including social media) reports.

Prospective investors should be aware that the value of the Ordinary Shares may go down as well as up, that the market price of the Ordinary Shares may go down as well as up and that the market price of the Ordinary Shares may not reflect the underlying value of the Enlarged Group. Investors may, therefore, realise less than or lose all of their investment.

The share price of publicly quoted companies can be highly volatile and shareholdings illiquid. The market price of the Ordinary Shares may be subject to wide fluctuations in response to many factors, some specific to the Enlarged Group and its operations and others to the AQSE Growth Market in general including, but not limited to, variations in the operating results of the Enlarged Group, divergence in financial results from analysts' expectations, changes in earnings estimates by stock market analysts, general economic conditions or legislative changes in the Enlarged Group's sector. In addition, stock markets have from time-to-time experienced extreme price and volume fluctuations, which, as well as general economic and political conditions, could adversely affect the market price for the Ordinary Shares.

The trading of the Ordinary Shares on the AQSE Growth Market should not be taken as implying that there will be a liquid market for the Ordinary Shares and there is no guarantee that an active market will develop or be sustained after Admission. It may be more difficult for an investor to realise his investment in the Enlarged Group than in a company whose shares are quoted on the Official List.

14. Substantial Shareholders

On Admission, Charlie Chadd will hold (directly or indirectly), in aggregate, approximately 30.46 per cent. of the Enlarged Share Capital and Joseph Chadd will hold (directly or indirectly), in aggregate, approximately 20.31 per cent. of the Enlarged Share Capital. Notwithstanding the terms of the Relationship Agreement, the Articles and applicable laws and regulations, they will be able to exercise significant influence over the Enlarged Group and the Enlarged Group's operations, business strategy and those corporate actions which require the approval of Shareholders.

15. EIS status

Provisional clearance has been obtained from HM Revenue & Customs that the Enlarged Group's business qualifies for EIS Relief under EIS. Although qualifying investors should obtain tax relief on their investments under EIS relief, neither the Enlarged Group, the Existing Directors nor the Proposed Directors can provide any warranty or guarantee in this regard. Investors must take their own advice and rely on it.

Neither the Enlarged Group nor the Directors give any warranties or undertakings that EIS Relief, if granted, will not be withdrawn or that the business will be managed in such a way as to preserve EIS Relief. Circumstances may arise where the Directors believe that the interests of the Enlarged Group are not best served by acting in a way that preserves the EIS qualifying status. In such circumstances, the Enlarged Group cannot undertake to conduct its activities in a way designed to preserve any such relief or status. If the Enlarged Group carries on activities beyond those disclosed to HM Revenue & Customs, then Shareholders may cease to qualify for the relevant tax benefits.

Any person who is in any doubt as to their taxation position should consult with their professional tax adviser in order that they may fully understand how the rules apply in their individual circumstances.

The investment detailed in this Admission Document may not be suitable for all of its recipients and involves a high degree of risk. Before making an investment decision, prospective investors are advised to consult a professional adviser authorised under the FSMA if they are in the United Kingdom or, if not, to consult another appropriately authorised and independent financial adviser who specialises in advising on investments of the kind described in this Admission Document. Prospective investors should consider carefully whether an investment in the Enlarged Group is suitable for them in the light of their personal circumstances and the financial resources available to them.

This report is given for the purpose of complying with paragraph 6.3 of Table A of Appendix 1 to the AQSE Growth Market – Access Rulebook published by Aquis Exchange Limited and for no other purpose.

Responsibility

The Directors of the Company are responsible for preparing the Historical Financial Information on the basis of preparation set out in the notes to the Financial Information and in accordance with UK adopted International Accounting Standards (“IFRS”).

It is our responsibility to form an opinion on the Historical Financial Information as to whether the Historical Financial Information gives a true and fair view, for the purposes of the Admission Document, and to report our opinion to you.

Save for any responsibility arising under paragraph 6.3 of Table A of Appendix 1 to the AQSE Growth Market – Access Rulebook to any person as and to the extent provided, and save for any responsibility that we have expressly agreed in writing to assume, to the fullest extent permitted by law we do not assume responsibility and will not accept any liability to any other person for any loss suffered by any such other person as a result of, arising out of, or in connection with this report or our statement, required by and given solely for the purposes of complying with paragraph 6.3 of Table A of Appendix 1 to the AQSE Growth Market – Access Rulebook, consenting to its inclusion in the Admission Document.

Basis of opinion

We conducted our work in accordance with the Standards for Investment Reporting issued by the Financial Reporting Council in the United Kingdom. We are independent of the Company and GLM in accordance with the relevant ethical requirements as applied to Investment Circular Reporting Engagements, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our work included an assessment of evidence relevant to the amounts and disclosures in the Historical Financial Information. It also included an assessment of significant estimates and judgements made by those responsible for the preparation of the Historical Financial Information and whether the accounting policies are appropriate to the entity's circumstances, consistently applied and adequately disclosed.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Historical Financial Information is free from material misstatement whether caused by fraud or other irregularity or error.

Our work has not been carried out in accordance with auditing or other standards and practices generally accepted in jurisdictions outside the United Kingdom, including the United States of America, and accordingly should not be relied upon as if it had been carried out in accordance with those standards and practices.

Conclusions In Relation to Going Concern

We are required to report if we have anything material to add or draw attention to in respect of the Directors' statement in the Historical Financial Information about whether the Directors considered it appropriate to adopt the going concern basis of accounting in preparing the Historical Financial Information and the Directors' identification of any material uncertainties to GLM's ability to continue as a going concern over a period of at least twelve months from the date of this Admission Document.

We have nothing material to add or to draw attention to.

Opinion

In our opinion, the Historic Financial Information in Part IV Section C gives, for the purpose of the Admission Document dated 29 November 2023, a true and fair view of the state of affairs of GLM as at 30 September 2022 and of its results, cash flows and changes in equity for the period then ended in accordance with IFRS and has been prepared in a form that is consistent with the accounting policies to be adopted by the Company.

NOTES TO THE FINANCIAL INFORMATION

1. General Information

The principal activity of GL Membership Ltd (“GLM”) is that of advertising, promotion and running of competitions. GLM is incorporated and domiciled in the United Kingdom. GLM was incorporated on 17 September 2021.

The address of GLM’s registered office is 48 Warwick Street, London, W1B 5AW.

2. Accounting policies

The principal accounting policies applied in the preparation of the Historical Financial Information are set out below (“Accounting Policies or Policies”). These Policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1. Basis of preparing the Historical Financial Information

The Historical Financial Information has been prepared in accordance with UK adopted International Accounting Standards (“IFRS” or “UK-IAS”). The Historical Financial Information has also been prepared under the historical cost convention.

The Historical Financial Information is presented in Pounds Sterling rounded to the pound.

The preparation of Historical Financial Information in conformity with IFRS’s requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the GLM’s Accounting Policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Historical Financial Information are disclosed in Note 4.

The Historical Financial Information does not constitute statutory accounts within the meaning of section 434 of the Companies Act 2006.

Changes in accounting policy and disclosures

First time adoption of IFRS

The Historical Financial Information is a first time adoption of IFRS. Previously GLM prepared financial information under United Kingdom Generally Accepted Accounting Policies (“UK GAAP”). This note explains the principal adjustments made by GLM in restating its UK GAAP financial information.

The following standards were identified as having an impact on the Historical Financial Information:

IAS 2 – Inventory has been measured in accordance with IAS 2, lower of cost and Net Realisable Value.

IAS 7 – The statement of cash flow has been prepared in accordance with IAS 7, reporting cash flows during the period classified by operating, investing and financing activities.

IAS 33 – Earnings per share has been calculated and disclosed in accordance with IAS 33, as GLM is undergoing a reverse takeover and initial public offering.

IFRS 2 – For equity-settled share-based payment transactions, the services received, and the corresponding increase in equity, have been measured directly, at the fair value of services received in accordance with IFRS 2.

IFRS 7 – Financial instruments have been disclosed in the HFI in accordance with IFS 7.

These standards were reviewed in the context of GLM and there were no adjustments required to the figures presented in the Historical Financial Information. The amendments made in the conversion exercise from UK GAAP to IFRS were purely presentational throughout this Historical Financial Information.

- (a) New standards, amendments and interpretations in issue but not yet effective or not yet endorsed and not early adopted

* Subject to endorsement

2.2. Going concern

The Historical Financial Information has been prepared on a going concern basis, which assumes that GLM will have access to sufficient liquid resources to enable them to continue in operational existence for the foreseeable future and not less than twelve months from the date of signing this report. This assumption is based on the completion of the acquisition of GLM by Semper Fortis Esports plc and the associated Placing and Subscription and re-admission to AQSE. The Company will use the proceeds from the Placing and Subscription to continue to fund GLM.

Taking these matters into consideration, the Directors consider that the continued adoption of the going concern basis is appropriate having reviewed the forecasts for the coming 12 months and the Historic Financial Information does not reflect any adjustments that would be required if they were to be prepared other than on a going concern basis.

2.3. Foreign currencies

Items included in the Historical Financial Information are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The Historical Financial Information is presented in Pounds Sterling, rounded to the nearest pound, which is the Companies functional currency.

2.4. Financial assets

Classification

GLM's financial assets consist of loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(i) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. GLM's loans and receivables comprise trade and other receivables and cash and cash equivalents at the year-end.

2.5. Recognition and Measurement

Regular purchases and sales of financial assets are recognised on the trade date – the date on which GLM commits to purchasing or selling the asset. Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred, and GLM has transferred substantially all of the risks and rewards of ownership.

Loans and receivables are subsequently carried at amortised cost using the effective interest method.

2.6. Inventories

Inventories consist of purchased assets held for prize winners. Inventories are valued initially at cost and subsequently at the lower of cost and net realisable value. Net realisable value is determined as the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Cost is determined using the weighted average cost basis. GLM reviews inventory for obsolete items and any such inventory is written-down to net realisable value.

2.7. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and are subject to an insignificant risk of changes in value. GLM considers the credit ratings of banks in which it holds funds in order to reduce exposure to credit risk.

2.8. Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.9. Reserves

Share Premium – the reserve for shares issued above the nominal value. This also includes the cost of share issues that occurred during the year.

Retained Earnings – the retained earnings reserve includes all current and prior periods retained profit and losses.

2.10. Share based payments

GLM issues equity-settled share-based payments to certain individuals in the form of ordinary shares in exchange for services. Equity-settled share-based payments are measured at fair value at the date the service is provided. The fair value determined at that date is expensed in GLM's financial statement.

2.11 Earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of GLM, excluding any costs of servicing equity other than ordinary shares;
- by the weighted average number of ordinary shares outstanding during the period.

No diluted earnings per share has been presented as GLM is loss making and as a result, any additional equity instruments have the effect of being anti-dilutive.

2.12. Trade receivables

Trade receivables are amounts due from customers for membership fees which are classified as current assets. Trade receivables are recognised initially at fair value, and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

2.13 Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value, and subsequently measured at amortised cost using the effective interest method.

2.14. Taxation

Current taxes are based on the results shown in the Historical Financial Information and are calculated according to local tax rules, using tax rates enacted or substantially enacted by the statement of financial position date.

The current income tax charge is calculated based on the tax laws in the countries where GLM operates.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Tax provisions are accounted for on the basis of amounts expected to be paid at a later period to the tax authorities.

2.15. Revenue recognition

GLM recognises revenue derived from the sale of memberships. Customers are able to purchase memberships in exchange for being entered into a monthly prize draw which provide the customer with the possibility of winning a cash or non cash prize and access to various discounts.

Revenue is recognised at the point of sale of the membership.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for membership services, stated net of discounts, returns and value added taxes. GLM recognises revenue as it meets its performance obligations, in accordance with IFRS 15, over the period covered by the membership fee. During the period, all memberships were paid monthly with revenue recognised in the month paid.

Revenue from the provision of services is recognised as the services are rendered, in accordance with customer contractual terms.

2.16. Cost of Sales

Cost of sales comprises direct costs relating to prizes and membership services.

2.17. Employee benefits

GLM operates a defined contribution pension scheme. Contributions payable to GLM's pension scheme are charged to the income statement in the period to which they relate.

3. Financial risk management

3.1. Financial risk factors

GLM's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. GLM's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on GLM's financial performance.

a) Liquidity Risk

GLM's continued future operations depend on the ability to raise sufficient working capital through the issue of equity share capital or debt as mentioned in the going concern note. The Directors are reasonably confident that adequate funding will be forthcoming with which to finance operations. Controls over expenditure are carefully managed.

b) Market Risk

The Director's consider there to be no exposure to market risk. The Directors will continue to assess the effect of movements in market risks on GLM's financial operations and initiate suitable risk management measures where necessary.

c) Credit Risk

Credit risk arises from cash and cash equivalents as well as exposure to customers including outstanding receivables. The Director's consider there to be no exposure to credit risk. GLM periodically assesses the financial reliability of customers and counterparties.

No credit limits were exceeded during the period, and management does not expect any losses from non-performance by these counterparties.

GLM's cash holdings are held with Barclays business account which has an A+ credit rating.

3.2. Capital risk management

GLM's objectives when managing capital are to safeguard GLM's ability to continue as a going concern, in order to enable GLM to continue its investment activities, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, GLM may adjust the issue of shares or sell assets to reduce debts.

GLM defines capital based on the total equity. GLM monitors its level of cash resources available against future planned operational activities and GLM may issue new shares in order to raise further funds from time to time.

4. Critical accounting estimates

The preparation of the Historical Financial Information in conformity with IFRSs requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Historical Financial Information and the reported amount of expenses during the year. Actual results may vary from the estimates used to produce the Historical Financial Information.

Estimates and judgements are continually evaluated and are based on past experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. No key accounting estimates or judgements were included in the Historical Financial Information.

There are no estimates or judgements used in the preparation of the Historical Financial Information for this period.

5. Operating Segments

Management consider that GLM has one operating segment as it only operates in the UK and derives revenue from only one source. All revenue is derived from membership in the UK.

A *pro forma* adjustment has been made to reflect the receipt of cash from investors in relation to the issue of the Convertible Loan Note totalling £120,000 to GLM between 20 July 2023 and 27 July 2023. A further £124,000 of Convertible Loan Notes were issued in September and October 2023. The difference between the fair value of the consideration and net assets acquired is taken to reserves and the statement of comprehensive income and therefore has no impact on the proforma statement of net assets above.

5. An adjustment has been made to reflect the proceeds of the Placing and Subscription for 70,000,000 new Ordinary Shares of the Company at an Issue Price of £0.02 per Ordinary Share less an adjustment to reflect the payment in cash of Admission costs of approximately £400,000 exclusive of any non-recoverable sales taxes.

PART VII

UNITED KINGDOM TAXATION

The following information is based on UK tax law and HM Revenue and Customs (HMRC) practice currently in force in the UK. Such law and practice (including, without limitation, rates of tax) is in principle subject to change at any time. The information that follows is for guidance purposes only. Any person who is in any doubt about his or her position should contact their professional advisor immediately.

Tax treatment of UK investors

The following information, which relates only to UK taxation, is applicable to persons who are resident in the UK and who beneficially own Ordinary Shares as investments and not as securities to be realised in the course of a trade. It is based on the law and practice currently in force in the UK. The information is not exhaustive and does not apply to potential investors:

- (1) who intend to acquire, or may acquire (either on their own or together with persons with whom they are connected or associated for tax purposes), more than 10 per cent., of any of the classes of shares in the Company; or
- (2) who intend to acquire Ordinary Shares as part of tax avoidance arrangements; or
- (3) who are in any doubt as to their taxation position.

Such Shareholders should consult their professional advisers without delay. Shareholders should note that tax law and interpretation can change and that, in particular, the levels, basis of and reliefs from taxation may change. Such changes may alter the benefits of investment in the Company.

Shareholders who are neither resident nor temporarily non-resident in the UK and who do not carry on a trade, profession or vocation through a branch, agency or permanent establishment in the UK with which the Ordinary Shares are connected, will not normally be liable to UK taxation on dividends paid by the Company or on capital gains arising on the sale or other disposal of Ordinary Shares. Such Shareholders should consult their own tax advisers concerning their tax liabilities.

Dividends

Where the Company pays dividends no UK withholding taxes are deducted at source, Shareholders who are resident in the UK for tax purposes will, depending on their circumstances, be liable to UK income tax or corporation tax on those dividends.

UK resident individual Shareholders who are domiciled in the UK, and who hold their Ordinary Shares as investments, will be subject to UK income tax on the amount of dividends received from the Company.

There is a dividend allowance of £1,000 per annum for individuals. Dividends falling within this allowance will effectively be taxed at 0% but such dividends will still count as taxable income when determining how much of the basic rate band or higher rate band has been used. If an individual receives dividends in excess of this allowance in a tax year, the excess will be taxed at 8.75%, (for individuals not liable to tax at a rate above the basic rate), 33.75%, (for individuals subject to the higher rate of income tax) and 39.35% (for individuals subject to the additional rate of income tax). The rate of tax paid on dividend income by trustees of discretionary trusts is 8.75% (for dividend income that falls within the standard rate band) and 39.35% (for dividend income that falls above the standard rate band). United Kingdom pension funds and charities are generally exempt from tax on dividends which they receive.

Shareholders who are subject to UK corporation tax should generally, and subject to certain anti-avoidance provisions, be able to claim exemption from UK corporation tax in respect of any dividend received but will not be entitled to claim relief in respect of any underlying tax.

Disposals of Ordinary Shares

Any gain arising on the sale, redemption or other disposal of Ordinary Shares will be taxed at the time of such sale, redemption or disposal as a capital gain.

UK resident individual Shareholders will be subject to capital gains tax to the extent their net gains exceed the annual exempt amount of £6,000, after taking account of any other available reliefs. The rate of capital gains tax on disposal of Ordinary Shares by basic rate taxpayers is 10%, and 20% for upper rate and additional rate taxpayers.

For Shareholders within the charge to UK corporation tax, indexation allowance up until 31 December 2017 may reduce any chargeable gain arising on disposal of Ordinary Shares but will not create or increase an allowable loss.

The corporation tax rate applicable to taxable profits is currently 25% applying to profits over £250,000. A small profits rate applies for companies with profits of £50,000 or less so that these companies pay corporation tax at 19%. Companies with profits between £50,000 and £250,000 pay tax at the main rate reduced by a marginal relief providing a gradual increase in the effective corporation tax rate.

Further information for Shareholders subject to UK income tax and capital gains tax

“Transactions in securities”

The attention of Shareholders (whether corporates or individuals) within the scope of UK taxation is drawn to the provisions set out in, respectively, Part 15 of the Corporation Tax Act 2010 and Chapter 1 of Part 13 of the Income Tax Act 2007, which (in each case) give powers to HMRC to raise tax assessments so as to cancel “tax advantages” derived from certain prescribed “transactions in securities”.

Stamp Duty and Stamp Duty Reserve Tax (SDRT)

The statements below are intended as a general guide to the current position. They do not apply to certain intermediaries who are not liable to stamp duty or SDRT or (except where stated otherwise) to persons connected with depositary arrangements or clearance services who may be liable at a higher rate.

No stamp duty or SDRT will generally be payable on the issue of Ordinary Shares.

Neither UK stamp duty nor SDRT should arise on transfers of Ordinary Shares on the AQSE Growth Market (including instruments transferring Shares and agreements to transfer Ordinary Shares) based on the following assumptions:

- (1) the Ordinary Shares are admitted to trading on the AQSE Growth Market, but are not listed on any market (with the term “listed” being construed in accordance with section 99A of the Finance Act 1986), and this has been certified to Euroclear; and
- (2) AQSE Growth Market continues to be accepted as a “recognised growth market” (as construed in accordance with section 99A of the Finance Act 1986).

In the event that either of the above assumptions does not apply, stamp duty or SDRT may apply to transfers of Ordinary Shares in certain circumstances.

The above comments are intended as a guide to the general stamp duty and SDRT position and may not relate to persons such as charities, market makers, brokers, dealers, intermediaries and persons connected with depositary arrangements or clearance services to whom special rules apply.

Inheritance tax

Shareholders regardless of their tax status should seek independent professional advice when considering any event which may give rise to an inheritance tax charge.

Ordinary Shares beneficially owned by an individual Shareholder will be subject to UK inheritance tax on the death of the Shareholder (even if the Shareholder is not domiciled or deemed domiciled in the UK); although the availability of exemptions and reliefs may mean that in some circumstances there is no actual tax liability. A lifetime transfer of assets to another individual or trust may also be subject to UK inheritance tax based on the loss of value to the donor, although again exemptions and reliefs may be relevant. Particular rules apply to gifts where the donor reserves or retains some benefit.

Shares in AQSE Growth Market quoted trading companies or a holding company of a trading group may, after a two year holding period, qualify for Business Property Relief for United Kingdom inheritance tax purposes, subject to the detailed conditions for the relief.

THIS SUMMARY OF UK TAXATION ISSUES CAN ONLY PROVIDE A GENERAL OVERVIEW OF THESE AREAS AND IT IS NOT A DESCRIPTION OF ALL THE TAX CONSIDERATIONS THAT MAY BE RELEVANT TO A DECISION TO INVEST IN THE COMPANY. THE SUMMARY OF CERTAIN UK TAX ISSUES IS BASED ON THE LAWS AND REGULATIONS IN FORCE AS OF THE DATE OF THIS DOCUMENT AND MAY BE SUBJECT TO ANY CHANGES IN UK LAWS OCCURRING AFTER SUCH DATE. LEGAL ADVICE SHOULD BE TAKEN WITH REGARD TO INDIVIDUAL CIRCUMSTANCES. ANY PERSON WHO IS IN ANY DOUBT AS TO THEIR TAX POSITION OR WHERE HE OR SHE IS RESIDENT, OR OTHERWISE SUBJECT TO TAXATION, IN A JURISDICTION OTHER THAN THE UK, SHOULD CONSULT HIS OR HER PROFESSIONAL ADVISER.

2.2.4	Information about and terms of any acquisition rights and or obligations over authorised but unissued capital or an undertaking to increase the capital.	Save as set out in paragraph 2.2.3 above, there are no acquisition rights and or obligations over authorised but unissued capital or an undertaking to increase the capital.

No dividend may be paid in contravention of the special rights attaching to any share, and no dividend declared in general meeting shall be payable in excess of the amount recommended by the Board. Unless otherwise resolved, all dividends are apportioned and paid proportionately to the amounts paid up on the Ordinary Shares during any portion or portions of the period in respect of which the dividend is paid. The holders of Redeemable Deferred Shares shall have no right to receive any dividend or other distribution whether of capital or income other than a return of capital in connection with the cancellation of the entire nominal value of each Redeemable Deferred Share or on a return of capital in a liquidation.</p> <p>A dividend may, upon the recommendation of the Board and on being approved by ordinary resolution, be wholly or partly satisfied by the distribution of assets and, in particular, of paid up shares or debentures of any other company. No dividend shall bear interest against the Company unless otherwise provided by the rights attached to the share. Any dividend, interest or other sums payable and unclaimed for one year after having been declared may be invested or otherwise made use of by the Board for the benefit of the Company until claimed. Any dividend, interest or other sums unclaimed for a period of 12 years from the date of such dividend having been declared, or such interest or other sums becoming payable, shall be forfeited and shall revert to the Company.</p> <p>The Board may, if authorised by ordinary resolution, offer Shareholders, in respect of any dividend, the right to elect to receive Ordinary Shares by way of scrip dividend instead of cash. The Board may withhold payment of all or any part of any dividends or other monies payable in respect of any Ordinary Shares that represents at least 0.25 per cent. of the Ordinary Shares in issue (excluding any Ordinary Shares held as treasury shares) if a person who has, or appears to the Company to have, an interest in those Ordinary Shares has failed to comply with a disclosure notice.</p> <p>1.2 Voting rights of members</p> <p>1.2.1 In general, all holders of Ordinary Shares who have properly registered their shares in time may participate in general meetings. The holders of Redeemable Deferred Shares shall have no right to receive notice of, or to attend or vote at, any general meeting of the Company, but shall have a right to receive notice of and to attend and to vote at any separate class meeting of the holders of Redeemable Deferred Shares.</p> <p>1.2.2 If the notice of the meeting has specified a time (which is not more than 48 hours, ignoring any part of a day that is not a working day, before the time fixed for the meeting) by which a person must be entered on the register of members in order to have the right to attend and vote at the meeting, no person registered after that time shall be eligible to attend and vote at the meeting by right of that registration, even if present at the meeting.</p> <p>1.2.3 Subject to any special terms as to voting for the time being attached to any shares in the Company, on a show of hands every member present in person or by duly appointed proxy at a general</p>

		<p>meeting and entitled to vote shall have one vote and on a poll every member present in person or by proxy and entitled to vote has one vote for every share held by him. In the case of joint holders, the person whose name stands first in the register of members and who votes in person or by proxy is entitled to vote to the exclusion of all other joint holders.</p> <p>1.2.4 No holder of a Share shall, unless the Board otherwise determines, be entitled (except as a proxy for another member) to be present or vote at a general meeting either personally or by proxy if any call or other sum presently payable by him to the Company in respect of that Share remains unpaid; or if he or any other person who appears to be interested in the Share has been duly served pursuant to the Companies Act with a disclosure notice (see paragraph 6.5.10 (a) below).</p> <p>1.2.5 A member in respect of whom an order has been made by any competent court or official on the ground that he is or may be suffering from mental disorder or is otherwise incapable of managing his affairs may vote, whether on a show of hands or on a poll, by any person authorised to do so on his behalf as long as evidence satisfactory to the Board of that person's authority is provided in accordance with the Articles.</p> <p>1.3 Pre-emption rights</p> <p>Under the Statutes, if the Company issues shares or certain other securities, current Shareholders will generally have pre-emption rights to those shares or securities on a pro-rata basis. The Shareholders may, by special resolution, grant authority to the Board to allot shares as if the pre-emption rights did not apply. This authority may be either specific or general and may not exceed a period of five years.</p> <p>1.4 Return of capital</p> <p>Under the Statutes on a voluntary winding-up of the Company, the liquidator may divide among the members the whole or any part of the assets of the Company. For such purpose, the liquidator may set the value and may determine on the basis of that valuation and in accordance with the then existing rights of members how the division is to be carried out between members or classes of members.</p> <p>On a return of capital in connection with the cancellation of the entire nominal value of each Redeemable Deferred Share or in a liquidation (but not otherwise) the holders of the Redeemable Deferred Shares shall have a right to receive the nominal amount of each such Redeemable Deferred Share held but only after the holder of each Ordinary Share shall have received the amount paid up or credited as paid up on each such Ordinary Share. The holders of the Redeemable Deferred Shares shall not be entitled to any further participation in the assets or profits of the Company</p> <p>1.5 Disclosure of interests in shares and restrictions for failure to provide information</p> <p>1.5.1 If a person appearing to have an interest in the issued share capital of the Company of a class carrying rights to vote in all circumstances at general meetings has failed to give the Company within 14 days information required by a notice requiring that information (a “disclosure notice”), the Board may, at its discretion, impose restrictions upon the relevant shares.</p> <p>1.5.2 The restrictions available are the suspension of voting or other rights in relation to meetings of the Company in respect of the</p>

The restrictions shall cease to apply seven days after the earlier of receipt by the Company of notice of an excepted transfer (but only in relation to the shares transferred) and due compliance, subject to the satisfaction of the Board, with the disclosure notice. For these purposes, an excepted transfer means a transfer pursuant to acceptance of a takeover bid, or a sale of the whole beneficial interest in the shares on a recognised investment exchange or a stock exchange outside the United Kingdom on which the shares are normally traded, or a sale of the whole beneficial interest in the shares otherwise than on a stock exchange to a person whom the Board is satisfied is not connected with the transferor or with any person appearing to be interested in the shares.</p> <p>1.5.3 The Disclosure Guidance and Transparency Rules require Shareholders (subject to certain exceptions) to notify the Company if the voting rights directly or indirectly held (within the meaning of those rules) by such Shareholder reaches, exceeds or falls below three per cent. and each one per cent. threshold above that.</p> <p>1.6 Untraceable shareholders</p> <p>The Company shall be entitled to sell, at the best price reasonably obtainable, the shares of a member or the shares to which a person is entitled by transmission if:</p> <p>1.6.1 during a period of 12 years prior to the date of advertising its intention to sell such shares at least three cash dividends in respect of such shares have become payable but no dividend has been claimed;</p> <p>1.6.2 after the expiry of that period, the Company has published a notice stating it intends to sell the shares in a leading national daily newspaper in the United Kingdom and in a newspaper circulating in the area of the last known address of the member or the person entitled by transmission; and</p> <p>1.6.3 during that period or three months following the publication of the advertisements and prior to the exercise of the power of sale, the Company has not heard from the member or the person entitled to the shares by transmission.</p> <p>The net proceeds of such sale shall belong to the Company, which shall be obliged to account to the former member or other person who would have been entitled to the shares for an amount equal to the proceeds as a creditor of the Company.</p>

2.3 Tax		
2.3.1	<p>A warning that the tax legislation of the investor and of the company's country of incorporation may have an impact on the income received from the securities.</p> <p>Information on the taxation treatment of the securities where the proposed investment attracts a tax regime specific to that type of investment.</p>	<p>It is possible that the tax legislation of the jurisdiction in which an investor is domiciled or resident and of the United Kingdom, being the Company's country of incorporation, may have an impact on the income received from the Ordinary Shares. Investors who are in any doubt as to their tax position are advised to consult with their professional tax adviser in order that they may fully understand how the rules apply in their individual circumstances.</p> <p>Information on the taxation of Ordinary Shares under EIS is set out in paragraphs 24 of Part I and 15 of Part III above.</p>
2.4 Takeovers		
2.4.1	<p>(a) Statement on the existence of national legislation or rules on takeovers applicable to the company and the possibility for frustrating measures if any;</p> <p>(b) a brief description of the shareholders' rights and obligations in case of mandatory takeover bid, and/or squeeze-out or sell-out rules in relation to the securities; and</p> <p>(c) a brief description of any further provision of the company's articles of association, statutes, charter or bylaws that would have an effect of delaying, deferring or preventing a change in control of the company.</p>	<p>(a) The Company is subject to the provisions of the Takeover Code.</p> <p>(b) Mandatory Bid: The City Code applies to the Company. Under the City Code, if an acquisition of shares were to increase the aggregate holding of the acquirer and its concert parties to shares carrying 30 per cent. or more of the voting rights in the Company, the acquirer and, depending on the circumstances, its concert parties would be required (except with the consent of the Panel on Takeovers and Mergers) to make a cash offer for the outstanding shares in the Company at a price not less than the highest price paid for the shares by the acquirer or its concert parties during the 12 months prior to the announcement of the offer. This requirement would also be triggered by any acquisition of shares by a person holding (together with its concert parties) shares carrying between 30 and 50 per cent. of the voting rights in the Company if the effect of such acquisition were to increase that person's percentage of the voting rights.</p> <p>Squeeze Out: Under the Companies Act, if an offeror were to acquire or contract to acquire not less than 90 per cent. of the shares to which the offer relates within four months of making its offer, it could then compulsorily acquire the remaining percentage of shares in the Company. It would do so by sending a notice to outstanding shareholders telling them that it will compulsorily acquire their shares and then, six weeks later, it would execute a transfer of the outstanding shares in its favour and pay consideration to the Company, which would hold the consideration on trust for outstanding Shareholders. The consideration offered to the Shareholders whose shares are compulsorily acquired under the Companies Act must, in general, be the same as the consideration that was available under the takeover offer.</p> <p>Sell Out: The Companies Act would also give minority shareholders in the Company a right to be bought out in certain circumstances by an offeror who made a takeover offer. If a takeover offer related to all the shares and, at any time before the end of the period within which the offer could be accepted, the offeror held or had agreed to acquire not less than 90 per cent. of the shares to which the offer relates on an unconditional basis, any holder of shares to which the offer related who had not accepted the offer could by a written communication to the offeror require it to acquire those shares. The offeror would be required to give any Shareholder notice of his or her right to be bought out within one</p>

		<p>month of that right arising. The offeror may impose a time limit on the rights of minority Shareholders to be bought out, but that period cannot end less than three months after the end of the acceptance period. If a Shareholder exercises his or her right, the offeree is bound to acquire those shares on the terms of the offer or on such other terms as may be agreed.</p> <p>(c) There are no further provision of the company's articles of association, statutes, charter or bylaws that would have an effect of delaying, deferring or preventing a change in control of the company.</p>

Notes:

1. Resolution 2 will be taken on a poll by Independent Shareholders.
2. Members entitled to attend and vote at the General Meeting are also entitled to appoint one or more proxies to exercise all or any of their rights to attend and speak and vote on their behalf at the meeting. A shareholder may appoint more than one proxy in relation to the General Meeting provided that each proxy is appointed to exercise the rights attached to a different share or shares held by that shareholder which must be identified on the form of proxy. A proxy needs to be a shareholder of the Company. A form of proxy which may be used to make such appointment and give proxy instructions accompanies this notice. If you wish your proxy to speak at the meeting, you should appoint a proxy other than the chairman of the meeting and give your instructions to that proxy.
3. A Form of Proxy is enclosed for use by members. To be valid it should be completed, signed and delivered (together with the power of attorney or other authority (if any) under which it is signed, or a notarially certified copy of such power of authority) to the Company's registrars Link Group, PXS1, Central Square, 29 Wellington Street, Leeds, LS1 4DL, not later than 48 hours, excluding non-working days, before the time appointed for holding the General Meeting or in the case of a poll taken subsequently to the date of the General Meeting or any adjourned meeting, not less than 24 hours before the time appointed for the taking of the poll or for holding the adjourned meeting. Shareholders who intend to appoint more than one proxy can obtain additional Forms of Proxy from Link Group. Alternatively, the form provided may be photocopied prior to completion. The Forms of Proxy should be returned in the same envelope and each should indicate that it is one of more than one appointments being made.
4. A withheld option has been included on the Form of Proxy. The legal effect of choosing the withheld option on any resolution is that the shareholder concerned will be treated as not having voted on the relevant resolution. The number of withheld votes will however be counted and recorded, but disregarded in calculating the number of votes for or against each Resolution.
5. CREST members who wish to appoint a proxy or proxies by utilising the CREST electronic proxy appointment service may do so by utilising the procedures described in the CREST Manual. CREST personal members or other CREST sponsored members, and those CREST members who have appointed a voting service provider(s), should refer to their CREST sponsor or voting service provider(s) who will be able to take the appropriate action on their behalf.
6. CREST members who wish to appoint one or more proxies through the CREST system may do so by using the procedures described in "the CREST voting service" section of the CREST Manual. CREST personal members or other CREST sponsored members, and those CREST members who have appointed one or more voting service providers, should refer to their CREST sponsor or voting service provider(s), who will be able to take the appropriate action on their behalf. In order for a proxy appointment or a proxy instruction made using the CREST voting service to be valid, the appropriate CREST message (a "CREST proxy appointment instruction") must be properly authenticated in accordance with the specifications of CREST's operator, Euroclear UK & International Limited ("Euroclear"), and must contain all the relevant information required by the CREST Manual. To be valid the message, regardless of whether it constitutes the appointment of a proxy or is an amendment to the instruction given to a previously appointed proxy, must be transmitted so as to be received by Link Group, as the Company's "issuer's agent", (RA10) 48 hours before the time appointed for holding the meeting or adjourned meeting (as such a message cannot be transmitted on weekends or on other days when the CREST system is closed). After this time any change of instruction to a proxy appointed through the CREST system should be communicated to the appointee through other means. The time of the message's receipt will be taken to be when (as determined by the timestamp applied by the CREST Applications Host) the issuer's agent is first able to retrieve it by enquiry through the CREST system in the prescribed manner. Euroclear does not make available special procedures in the CREST system for transmitting any particular message. Normal system timings and limitations apply in relation to the input of CREST proxy appointment instructions. It is the responsibility of the CREST member concerned to take (or, if the CREST member is a CREST personal member or a CREST sponsored member or has appointed any voting service provider, to procure that his or her CREST sponsor or voting service provider(s) take(s)) such action as is necessary to ensure that a message is transmitted by means of the CREST system by any particular time. CREST members and, where applicable, their CREST sponsors or voting service providers should take into account the provisions of the CREST Manual concerning timings as well as its section on "Practical limitations of the system". In certain circumstances the Company may, in accordance with Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001 or the CREST Manual, treat a CREST proxy appointment instruction as invalid. The CREST Manual can be reviewed at www.euroclear.com.
7. CREST members and, where applicable, the sponsors or voting service provider(s), should note that CREST does not make available a special procedure in CREST for any particular messages. Normal system timings and limitations will therefore apply in relation to the input of proxy instructions. It is the responsibility of the CREST members concerned to take (or of the CREST member is a CREST personal member or has appointed a voting service provider(s), to procure that his CREST sponsor or voting service provider(s) take(s) such sections as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. In this connection CREST members and where applicable their CREST sponsors or voting service provider(s) are referred, in particular, to those sections of the CREST Manual concerning practical limitations of the CREST system and timings.
8. The Company may treat as invalid a CREST proxy instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.
9. Completion and return or submission electronically, of a Form of Proxy will not affect the right of such member to attend and vote in person at the meeting or any adjournment thereof. Unless otherwise indicated on the Form of Proxy, CREST or any other electronic voting instruction, the proxy will vote as they think fit or, at their discretion, withhold from voting.
10. Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company gives notice that only those shareholders entered on the register of members of the Company at 10.00 a.m. on 13 December 2023 will be entitled to attend or vote (whether in person or by proxy) at the General Meeting in respect of the number of shares registered in their name at that time. Changes to entries on the register after 10.00 a.m. on 13 December 2023 will be disregarded in determining the rights of any person to attend or vote at the meeting or any adjourned meeting (as the case may be).
11. As at 28 November 2023 (being the last business day prior to the publication of this notice of meeting) the Company's issued share capital consisted of 515,499,800 Ordinary Shares, carrying one vote each, therefore, the total voting rights in the Company as at 28 November 2023 are 515,499,800.
12. Shareholders who prefer to register the appointment of their proxy electronically using the internet can do so at www.sharegateway.co.uk, and should use their personal proxy registration code as shown on the Form of Proxy. The voting ID, task ID and shareholder reference number printed on the form of proxy will be required in order to use the services. Alternatively Shareholders who have already registered with Link Group' online portfolio service can appoint their proxy electronically by logging on to their portfolio and clicking on the link to vote. For an electronic proxy appointment to be valid, voting instructions must be received by Link Group no later than 10.00 a.m. on 13 December 2023. You may not use any electronic address provided in this notice of meeting to communicate with the Company for any purpose other than those expressly stated.
13. Each member attending the meeting has the right to ask questions relating to the business being dealt with at the meeting which the Company must cause to be answered.
